

Social Skills Group

Social Skills group provides training for those students who struggle with daily social challenges during school. By learning social "rules," that may appear to come naturally to many of their friends, they can develop positive social interactions, build a strong network of friends and no longer feel intimidated or isolated due to their difficulties.

Sessions are designed to be age appropriate and tailored to the needs and preferences of the group members. Our children report social skills lessons to be a fun 90 minutes where learning goes hand in hand with laughter.

Social Skills is a broad topic and can cover a wide variety of skills. These can include, but are not limited to:

School

Home

Community

- Conversation Skills
- Taking Turns
- Body Language
- Eye Contact
- Volume and Tone of Voice
- Aggression
- Assertiveness

It is our goal to develop each child's social knowledge and awareness in a safe and supported environment, to ensure they feel confident about applying their new-found social skills in their everyday lives.
